2. The above fares and times are only estimates, and are not intended to be used as a guaranteed rate.
3. The above fares were calculated using 690 yen as the starting fare, and 80 yen for each additional 277 meters.
Furthermore, fares will become more expensive if there is traffic congestion, as there is a surcharge of 80 yen per 100 seconds when the taxi must drive less than 10 km/h.
4. From 10 p.m. - 5 a.m., premium fares are in effect and rates will increase by 20%.
5. The above prices are just an example of one fare system; depending on the taxi company, fare systems may differ.
